

Ifeoluwase Adeleke

Full-Stack Software Engineer

eadelekeife@gmail.com • 08132277316 • <https://www.linkedin.com/in/ifeoluwase-adeleke>

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 4+ years of experience building scalable web and cross-platform applications for startups, agencies, and government clients. Proven track record in leading teams, mentoring developers, and delivering complex projects on time. Adept at creating efficient, user-friendly, and high-impact solutions that drive business growth and operational excellence.

EXPERIENCE

Senior Full-Stack Engineer – Bles Software

Aug 2025 – Present

- Delivered 9+ client projects across web, fintech, and internal platforms, achieving full project delivery on schedule and meeting client expectations.
- Developed internal tools that improved team productivity by 50% and streamlined company workflows.
- Rescued and completed 3 long-stalled projects (inactive for 1–2 years) within 2–3 months, restoring client trust and securing follow-up engagements.
- Built scalable, maintainable, and secure applications using React, Node.js, Express, and relational & NoSQL databases, supporting thousands of end-users.
- Mentored 5+ junior developers, providing guidance on coding standards, architecture, and best practices.
- Collaborated with cross-functional teams to ensure quality, timely delivery, and alignment with client business objectives.

Full-Stack Engineer - Facilitator (Part-time) – FindWorka

Oct 2024 – Sep 2025

- Delivered technical training across 3 cohorts, including 2 fullstack and 1 backend program, both in-person and virtual.
- Taught classes of 100+ students, facilitating engaging learning experiences for participants across Africa.
- Designed and delivered curriculum for backend development, mentoring students in real-world application of Node.js, databases, and API development.
- Supported student progress through personalized guidance, code reviews, and troubleshooting technical challenges.
- Collaborated with cross-functional teams to ensure consistency in course delivery and learning outcomes.
- Led frontend development sessions covering HTML, CSS, JavaScript, React, and responsive UI design.

Full-Stack Software Engineer – Damdam Global

Aug 2024 – Jul 2025

- Developed fintech and AI-driven solutions for corporate clients and the Lagos State Government, improving operational efficiency across 5 major projects.
- Built MadamShikini, an AI-powered assistant for Lagos State Revenue Services, handling over 50,000 citizen queries monthly and reducing response time by 60%.
- Designed and implemented internal tax collection tools, streamlining workflows and increasing processing efficiency by 40%, impacting 10,000+ taxpayers.
- Developed usePay4it, a financial platform enabling 1000+ businesses and government agencies to process digital payments, manage taxes, and improve transparency.
- Collaborated with cross-functional teams to deliver end-to-end full-stack solutions using React, Node.js, Express, and relational databases, supporting tens of thousands of concurrent users.

- Acted as primary point of contact for leadership, aligning engineering efforts with business objectives and providing regular project updates.
- Facilitated cross-functional collaboration between engineering, design, and DevOps teams to deliver seamless technical solutions and user-centric features.
- Conducted code reviews and mentored junior developers, fostering a culture of collaboration and continuous learning.
- Identified technical challenges and implemented scalable, secure, and high-performance solutions for platform growth.
- Collaborated with dance and product teams to prioritize and implement new features, increasing user satisfaction by 30% and user retention by 10%.
- Developed scalable video storage architecture, supporting a significant rise in uploaded content without performance issues.
- Implemented a new video playback library, improving play speed, reducing server load, and enhancing user experience.
- Designed and deployed a new subscription payment system, reducing unsuccessful transactions and improving customer experience.

- Successfully took part in the development of multiple web applications, resulting in an increase in the company's revenue and client satisfaction.
- Collaborated with cross-functional teams to develop customized solutions that met clients' unique business needs, resulting in a 25% increase in referral business and improved client satisfaction.
- Developed and integrated bill payment solutions for clients, resulting in a 20% increase in online sales and an increase in revenue.
- Collaborated with the design team to develop interactive web applications that provided engaging user experiences, resulting in a 15% increase in user engagement and a 10% increase in time spent on the website.

- Developed responsive, mobile-first web designs that increased customer engagement and improved conversion rates.
- Built and deployed websites and digital campaigns, boosting project completion rates and overall team efficiency.
- Implemented internal tools and systems, reducing manual processing time and streamlining workflows.
- Enhanced technical skills through online courses and workshops, staying current with industry trends and best practices.
